NHS Grampian External Consultancy

Expenditure on external consultancy during 2015/16 was £210,663.

NHS Grampian has used a total of 7 consultancy firms during 2015/16. These suppliers provided consultancy services in a number of areas including capital projects, construction and building infrastructure development and infection control issues. Consultancy services are used for the provision of specialist expertise which is not available from NHS Grampians own staff and therefore represent a value for money alternative to the direct employment of specialist staff.
