This index shows patients admitted to Banff District Asylum, or Ladysbridge Hospital as it became known, between 1865 and 1914. The index shows the reference number of the volume the entry can be found in, admission number, the forename and surname of the patient, their age, and any remarks – this is usually if there is another name by which they were known.

The index is set out in chronological order by date of admission, beginning on 3rd May 1865 when the hospital opened, and goes up to 19th November 1914, when this particular volume ends. You can visit our [online catalogue](#) to see a full list of records held for Ladysbridge Hospital. The index will be added to each year to reflect the most recent date available.

If you wish to find out more about an entry, please email grampian.archives@nhs.net for further information.
