Board Meeting 07.10.21 Open Session Item 6.01

## **Primary Care Activity Data Summary**

Figure 1: GP Activity data expressed in terms of number of eConsults

Figure 2: Near Me GP Activity Data

### Figure 3: GP Referrals for Cancer

	Average weekly GP referrals	Difference from 2019
2019	190.6	
2020	181.4	-9.2
2021	225.9	35.3

Source: Cancer Care Pathway Business Objects Reports

Referrals from GPs in 2021 are now at a higher rate than during 2019

Figure 4 represents a snapshot of activity for Financial Year 20/21. Overall trend data and detail by specialty and time of day is not readily available.

The data represented in figure 4 is helpful although more insightful data may be available from the SCI referral data.

### **Figure 6: OOH Presentations**

### Figure 5: Outpatient attendance rates by GP Practice

Figure 8: Proportion of dental patients registered as NHS patients- Grampian

Figure 9: Proportion of dental patients registered as NHS patients- Scotland

Figure 10: Optometry activity – NHS Sightests

#### Figure 11: Pharmacy – Overall Prescribing by practice

Note the above reflects the impact of practice population size i.e. the largest practices occupy the furthest left part of the axix so therefore, by definition, will dispense larger volumes.

### Figure 12: Pharmacy - Gross Ingredient Cost

## Figure 13: Pharmacy – Highest Cost by BNF Chapter NHS Grampian
